RTF doors can be kept looking like new, but proper cleaning material need to be used. To clean RTF doors use Methyl Hydrate, or Soap (no-abrasive) or Denatured Alcohol and water. Use of any other cleaning agent will void the warranty.

Do Not Use:

Any abrasive rubbing material or cleaner, or solvent based cleaning materials such as lacquer thinners or any other products containing acetone. These solvents destroy the acrylic coating and the doors will discolour when exposed to ultra violet rays.
